```
\label{eq:continuous_parameter} $$\operatorname{normallineskiplimit} \quad [\langle \mathit{dimen} \rangle \; \mathrm{parameter}] $$\operatorname{normallineskip} \quad [\langle \mathit{glue} \rangle \; \mathrm{parameter}] $$\operatorname{normallineskip} \quad [\langle \mathit{glue} \rangle \; \mathrm{parameter}] $$\operatorname{normalbaselines} $$
```

The three parameters contain values for \baselineskip, \lineskip, and \lineskiplimit respectively. The \normalbaselines command sets \baselineskip, \lineskip, and \lineskiplimit to the values contained in the three parameters.
